

**4 August 2017**

**Billington Holdings Plc**

('Billington' or 'the Group')

**Contracts Awarded**

Billington Holdings plc (AIM: BILN), one of the UK's leading structural steel and construction safety solutions specialists, is pleased to announce that its structural steel division, Billington Structures, has been awarded two contracts with a combined value of £14 million.

The contracts have been awarded by two prominent main contractors, the first for a large distribution centre in the South West, and the other for a leading and distinguished London university. These contracts will lead the Group in to a very busy second half of the year with a proportion of the work expected to carry over into 2018.

Mark Smith, Chief Executive Officer, commented:

*"The award of these two prestigious contracts is great news for Billington and is a testament to our team and our expertise. We look forward to working closely with both contractors to successfully deliver these projects.*

*"We believe that the Group can look forward to a busy second half of the year and that these contracts highlight that there are many positive tender opportunities in the market.*

*"We look forward to keeping shareholders updated on the Group's progress in September upon the release of the interim results."*
